The Center for Personal and Professional Development Delivers New GMT on Diversity

The training is currently accessible on Navy Knowledge On-line (NKO) and is designed to assist every Navy leader in actively fostering a work environment where each Sailor is valued, respected and provided the opportunity to reach his or her personal and professional potential.

"Diversity is Our Strength" introduces Sailors to diversity in the Navy, highlighting what diversity is and why it is important.

Upon completion of the GMT, Sailors will have the skills to define diversity and terms related to diversity; identify characteristics of diversity; identify components of the CNO's policy regarding diversity; identify reasons why diversity is a strategic imperative for the Navy; and identify how diversity benefits the Navy.

The training is a tool to reinforce to Sailors that the strength of our Navy comes from embracing individual uniqueness, race, gender, ethnicity, cultural heritage, geographical background, religion, education, talent, skills, ideas, creativity and experience.
